Projects

Data Analytics & Dashboard Projects (Power BI)

- Designed and developed **interactive dashboards** (Spotify Music Analysis, Amazon Global Sales, Car Showroom Performance, and E-Commerce Sales) with KPIs, trend analysis, and regional sales distribution.
- Executed **end-to-end ELT processes** (extraction, transformation, cleaning, data modelling) and implemented DAX calculations for advanced analytics
- Delivered actionable insights on **sales performance**, market share, customer segmentation, and profitability, supporting **data-driven decision-making.**

JIRA Agile Project Management

- **Kanban Project – Cricket Stream**: Designed a **Kanban board** with workflow stages (To Do → Development → Testing → Bug Fixing → Review → Deployment), applied **WIP limits**, managed user stories (e.g., account creation, score refresh issues), and used **filters/metrics** to track progress and remove bottlenecks.
- **Scrum Project – CrickStream**: Built a **Scrum project** with **Epics, Backlog, Versions, and Active Sprints**. Planned and prioritized user stories (*live score updates, notifications, analytics*), managed sprint cycles with **boards and reports (burndown, velocity)**, and facilitated **sprint planning, reviews, and retrospectives**.
